The ultra-scalable managed PC

When it comes to your next business PC, choose wisely. The ClientPro® 365 is the next-generation managed PC, offering a wide range of configurations to meet the demands of nearly every user in your organization. You can choose the latest in Intel® Pentium® 4 processors, Microsoft® Windows® XP Professional, along with midtower or small desktop chassis designs. Then, select between next generation Integrated Intel Graphics technology or high-performance PCI Express graphics cards – whatever best fits your business needs. Other key features include the Intel 915G chipset, eight high-speed USB 2.0 ports, Intel High Definition Audio, and Quiet Cooling technology.

We've designed the ClientPro 365 to allow you unification across the network, and to simplify management by scaling to a single platform. And you can do that without compromising performance, stability, or manageability. So get the ClientPro 365—it's the right choice.
