This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups. ⁷HP recommends that the number of pages per month of imaged output be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period. ⁸One CE255A cartridge included and its declared yield is 6,000 pages based on ISO/IEC 19752. Actual yield vary considerably based on images printed and other factors. For details please see www.hp.com/go/learnaboutsupplies. Pages may vary based on customer printing conditions and usage. And users can also purchase CE255X cartridge for this printer, which declared yield is 12,500 pages based on ISO/IEC 19752. ⁹Values subject to change. Power numbers are the highest values measured using all standard voltages. See www.hp.com/support for current information. Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty. ¹⁰Acoustic values are subject to change. For current information see www.hp.com/support.
