- HDMI cable required, sold separately.
- Works with other BRAVIA® Sync or Theatre Sync™ labeled home audio/video products when connected via HDMI™ interface
- Resolution limited to that supported by both the PC and the TV. See TV user's manual and PC documentation for supported resolutions.
- Dynamic contrast ratio compares the luminance of a 100 IRE (white) signal with that of a 0 IRE (black) signal. When the TV receives a 0 IRE signal the backlight is turned off and the luminance measurement is 0.00 cd/m2. The resulting dynamic contrast ratio is infinite.
