

## Apple iPad Air 2

The Apple iPad Air 2 is incredibly light, thin, and capable. It is equipped with a generous, high-definition 9.7-inch screen that makes it the perfect display. The 8-MP camera has advanced optics, an improved sensor, and an image signal processor that returns detailed and near cinematic imagery every time. Even video calls are high-resolution and stunning. Also, for such a small package, the speakers produce an oversized sound. Additionally, you get faster connectivity, iCloud functionality, iOS 8, and a fingerprint sensor ensures that the device remains secure at all times.
